Net Surplus, March 1, 1890,	\$1,736 88
" 1889,	1,716 81

During the year the town has paid bills for which no appropriation was made. \$859 43, of which \$600 was paid for school-house near Centre Harbor village, \$150 for road damage near S. C. Kelley's, and one, \$80 on account of diseased swine killed agreeably to law passed June session, 1889. But for these bills the increase in surplus would have been over \$800. The Treasurer is of the opinion that no appropriation need be made to meet ordinary town expenses the ensuing year, and so recommends, and also recommends that only \$600 be raised for schools, and that \$400 be appropriated for schools from the surplus. This will keep the tax rate down to one per cent. even if the town should raise money to purchase a road machine.

School Report.

In this, our fourth annual report, we have the pleasure to announce that this has been a prosperous year generally with our schools. The progress in the studies pursued has been commendable in most instances. A limited examination at the close of the several terms would seem to indicate that the knowledge obtained was practical and would be useful in the business of the more mature years of the pupils.

Written examinations have been required of the more advanced pupils once in two weeks, in some schools with good results. We would recommend that the practice be more general.

In a few instances more thorough discipline would have produced better results. The general deportment of the schools has been good. Our teachers have all evidently tried to be earnest and faithful in the discharge of their duties, whatever the results may have been.

Complaints have occasionally been entered to the Board of grievances of various kinds, but generally after the close of a term, or too late to do any good.

We would suggest that if any have grievances, they report immediately or not at all.

If anything seems to be unsatisfactory to any one in the management of a school, it would be better for such persons to visit the school and see for themselves than to rely on the possibly exaggerated or misstated complaints of pupils. We fear that sometimes prejudice may cause things to appear wrong which are not essentially wrong in themselves.

It would be well for all parents to visit the schools occasionally. Such visits would produce a deeper interest in school-matters and a better understanding between parents and teachers, beside being a benefit in discipline.

Irregularity of attendance from apparently trivial causes, has proved detrimental to one or more schools. Those who are irregular and not punctual in their attendance are not only losers themselves, but all connected with the school suffer more or less from the cause.

No one can receive the full benefit of a school unless present at all its exercises in which he is concerned.

Sickness has caused some interruption. Miss Butler was obliged to leave the second term in No. 12, at the end of the third week from this cause. Miss Davis from No. 11 completed the term. Miss Josie M. Hoyt completed the term in No. 11. The second term in No. 1 was closed prematurely by reason of sickness among the pupils. Other schools have suffered more or less from the same cause.

It will be necessary to raise a sum of money sufficient to carry out the requirements of the new "Free Text Book Law." The usual amount of one thousand dollars is recommended to be raised for the use of schools.
